FURTHER INFORMATION AND GUIDANCE FOR DETAILED DESIGN

FURTHER GUIDANCE

This document presents what needs to be considered when designing SuDS at the initial and concept design stage of a master plan. Guidance for detailed design of SuDS is available from a number of sources to inform the next stage of design. A list of resources is available from [Susdrain: The Community for Sustainable Drainage](#).

There are also legislative requirements for the design of SuDS. Current requirements are provided by [Defra](#) and your Lead Local Flood Authority.
