6. Provide information, training and advice to staff and hosts to enable them to minimise the likelihood of violent and aggressive incidents and to have the skills to deal with any incidents that do occur. Shared Lives will ensure that this training is kept current and up to date.
7. Ensure Shared Lives offices and work areas are safe and provide protection to staff from people who could place them at risk.
8. Ensure that adults are not placed with Shared Lives hosts without a comprehensive assessment of need, a risk assessment and detailed placement agreement and care & support plan which will include a clear risk management strategy.

9. Ensure that Shared Lives hosts have the knowledge and skills to support the people who are placed with them.
10. Ensure through regular monitoring and review that staff and Shared Lives hosts follow safe working practices.
11. Formally investigate and review any incidents of violence and aggression in order that lessons can be learned and actions taken that reduce the risk of violent or aggressive incidents in the future.
12. Keep clear and accurate records of any incident of violence and aggression
13. Provide support to people who are the victims of violence and aggression, which may include:
