List of tasks																																							
1	Business Case																																						
2	Prepare bid	3																																					
3	Senior Management sign off																																						
4	Submit bid																																						
5	Submit Economic case																																						
6	Confirmation/rejection of bid																																						
7	Outline design																																						
8	additional surveys/investigations/pre intervention monitoring	3																																					
9	initial outline designs including Traffic order requirements	8																																					
10	Outline estimate	2																																					
12	Stage 1 Safety Audit	1																																					
13	Review Safety Audit and amend the design as needed	3																																					
14	Finalise outline designs	3																																					
15	Detailed Design (excluding tender documents)	3																																					
16	Detailed design	6																																					
17	Traffic Orders and consultations	8																																					
18	Pretender cost estimates	8																																					
19	Stage 2 safety Audit	3																																					
20	Review Safety Audit and amend the design as needed	3																																					
21	Procurement/production of pre construction Information																																						
22	Strategic Commissioning Board																																						
23	Internal Governance & Approvals																																						
24	Tendering/pre construction information	6																																					
25	Contract Award																																						
26	Implementation																																						
27	Mobilisation	3																																					
28	Site clearance																																						
29	Construction Period	32																																					
30	Close down activities																																						
31	Post Scheme Monitoring																																						
32	Monitoring - every 1/4 for the first 3 years then annually there after	29
