14 **Urgent Business**

With the agreement of the Chairman, Mr McLennan, a member of the public, asked the following question:

"Where a County Council or Unitary Authority has been awarded Government Local Growth Funds for a project and their application is subsequently found to be fraudulent, misleading and incorrect. What legal jurisdiction does the South East Local Enterprise Partnership Board have to withdraw the award and recover government funds".

On behalf of the Board, the Chairman gave the following response:

"The Government release the Local Growth Fund to SELEP under specific conditions set out in a Grant Determination Letter. This includes a condition that the LGF may only be used for purposes that a capital receipt may be used for in accordance with the regulations under section 11 of the Local Government Act 2003.

If the SELEP fails to comply with any of the conditions and requirements set out within the Grant Determination Letter the Minister of State may:

a) Reduce, suspend or withhold grant; or

b) By notification in writing to the authority, require the repayment of the whole or any part of the grant.

The LGF is released to the Accountable Body, who are accountable for ensuring that the conditions and requirements of all funding received from Government are adhered to. Accordingly, these conditions and requirements are reflected in the Agreements between the Accountable Body and each partner authority. These Agreements transfer the responsibility for ensuring that the funding is spent in accordance with the Grant Determination Letter to the partner authority, and requires the respective s.151 officer to provide confirmation to the Accountable Body that this is the case. The repayment provisions are also reflected within these agreements.

The SELEP governance ensures that all projects are approved by the Accountability Board in the first instance, supported by a robust business case, which has been independently evaluated. Any changes to a project, which fall within SELEP's definition of project Change, must be approved by the Board. A further independent review of an updated Project Business Case will be undertaken if there is a Change to the project which may impact on the outcome

of the projects Value for Money assessment. Project changes include, but are not limited to, variations to a projects scope, cost, outputs or outcomes. The full definition of Project Change is provided in paragraph 5.11 of the SELEP Assurance Framework. The Council must repay all or part of the funding received with respect to a Project Allocation if the Board so requires where the Council abandons the Project; a Project is Changed and the Board declines to agree the Change; or the Project can no longer meet the Grant Conditions.

Each project is approved in full by the Accountability Board, however, the actual funding is released quarterly in advance, in line with the projects specific planned spend profile. As a result should there be any issue arising on any of the projects, this can be addressed and resolved at an at an early opportunity, and at a time when limited funding has been released

The SELEP are required to report to the Government on its management of the LGF, and it remains the government's decision on whether to active the repayment mechanisms.
