

# A249/Grovehurst Road Junction – Slip road closure plan

## Map of northbound exit slip lane closure and diversion plan

### Plan details

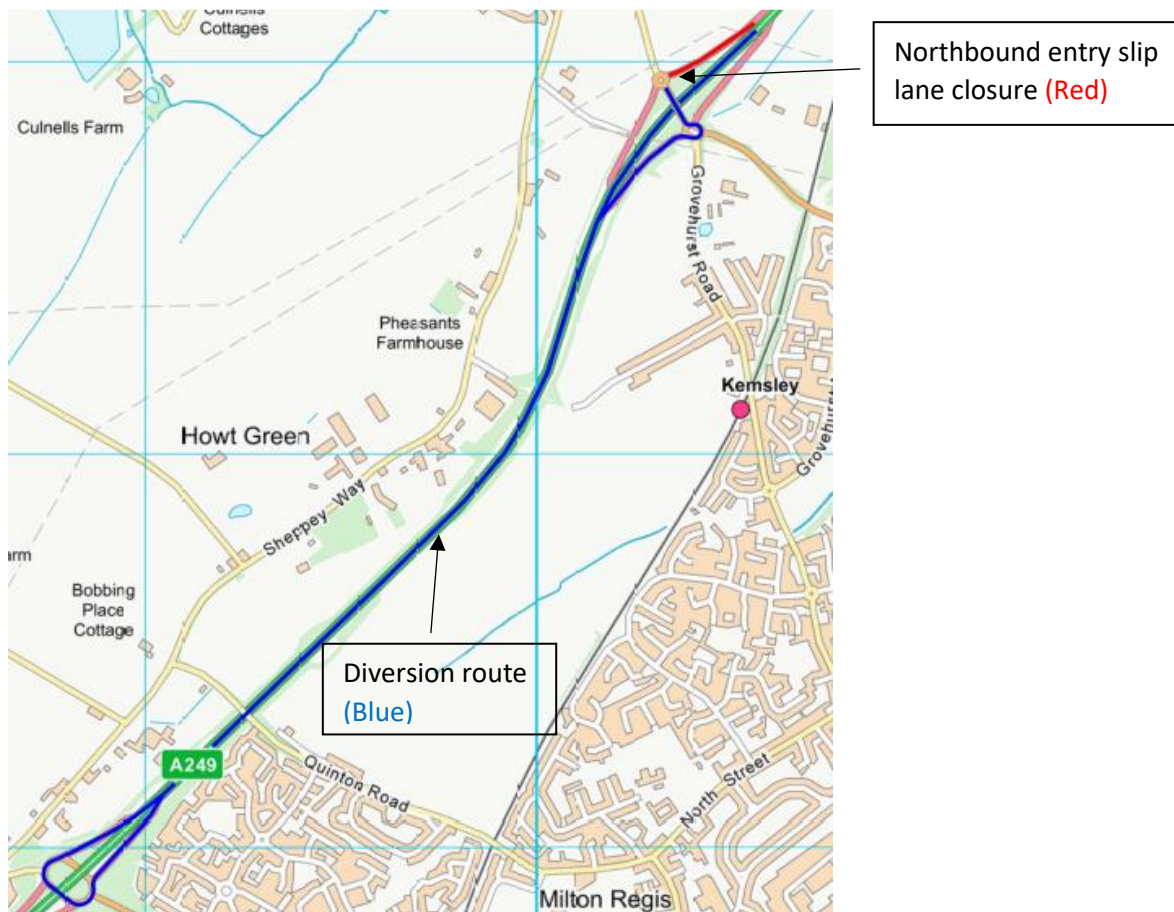

#### Closure area

We will be closing the northbound exit slip lane at the A249/Grovehurst Road junction. This closure will remain in place for approximately 4 months.

#### Diversion route

This means traffic which would normally exit the A249 at the Grovehurst Road junction will follow the A249 to the Kingsferry Road junction and return on the A249 southbound, towards Stockbury, and then exit at the existing Grovehurst Road junction. Both roundabouts will still be in use at this time.

## Map of northbound entry slip lane closure and diversion plan

### Plan details

#### Closure area

We will be closing the northbound entry slip lane at the A249/Grovehurst Road junction. This closure will remain in place for approximately 4 months.

#### Diversion route

Traffic that would normally head for Sheppey from Sittingbourne will be diverted along the southbound A249, towards Stockbury, exiting at the Bobbing junction and then returning along the A249 towards the Isle of Sheppey.
