Adult carers strategy consultation now open – ends 22 Feb

Thank you to those of you who participated in our carers strategy development workshops last year. Your thoughts and suggestions helped us to shape the draft **Kent adult carers strategy** that is now out for formal consultation. [Read about it on our website.](#)

Following research and engagement activities with unpaid carers, the public and providers, the six-week public consultation runs until 22 February 2022.

Through our conversations so far, we have heard clear views from unpaid carers about what is important to them and have brought these together in the draft strategy document.

The key points they highlighted for action include:

- supporting the carer to maintain their own identity and live a full life
- working collaboratively with carers at every stage
- working in a more joined-up way with partner organisations to offer high quality support that is tailored to the carer's own needs
- respecting carers and listening to their views
- communicating with carers in a clear and consistent way
- making information more available and offering trusted points of contact.

The need to reflect the '**key moments**' in a carer's journey (as well as a person's ongoing support needs) has also been included and these key moments have been shaped by recent feedback.

Our aim is to work more closely with unpaid carers and our partners to turn these ambitions into reality and bring welcomed improvements to the experiences of carers in Kent.

Have your say

We need your views on the draft strategy, which sets out what changes we want to see in the future and outlines the principles we will follow to achieve our five-year vision of:

“Making a difference every day by supporting and empowering you to live a fulfilling life whilst being a carer, as long as you are willing and able.”

Please read the draft strategy and answer the questionnaire on the Kent County Council consultation web page to let us know what you think.

Visit: www.kent.gov.uk/adultcarersstrategy to take part.

Printed copies of the document and questionnaire can be provided on request. If you run a community group and you would like someone to help facilitate a consultation workshop either online or face to face, please contact the Stakeholder Engagement Team via makingadifference@kent.gov.uk. **Please do share this information with your own networks.**

Workforce Recruitment and Retention Fund Round 2 (WRRF2) and ICP Vaccination and Testing Fund

The Infection Control Fund Team are in the process of allocating funds for the “WRRF2” (Workforce Retention and recruitment Fund), also the 2nd Tranche of ICP, Vaccination and Testing fund is due very soon.

In order for providers to receive these funds, the Adult Social Care Infection Control and Testing Fund, Round 3, guidance states:

“Local authorities must only pay out the 'direct funding to providers' allocation to providers who have completed the Capacity Tracker at least twice (2 consecutive weeks), and have committed to completing the tracker at least once per week until the conclusion of the fund”.

Recent communications have been sent to providers detailing the allocations of the “Workforce Recruitment and Retention Fund Round 2 (WRRF2)”.

“Whilst there are no specific requirements for how the funding is used to recruit and retain staff, we would expect there to be a recognition of the efforts of staff continually going above and beyond to support our residents. This recognition would in our view be most appropriately reflected through payments directly to your staff”.

The funding will be paid in one instalment, subject to the following criteria being met:

- The NHS Capacity Tracker has been updated for two consecutive weeks, and at least once a week up to 31 March 2022.
- You confirm how you intend to directly reward staff for their commitment i.e. Retention bonus, Gift Vouchers, Hampers etc and
- An authorised person sends an email confirming “Accept” by Midnight on Monday 31 January 2022 via email to the Infection Control Fund mailbox infectioncontrolfund@kent.gov.uk

We appreciate how busy providers are but it is a requirement for the NHS Capacity Tracker to be completed as detailed above in order for the ICF and WRRF Funds to be dispersed to you as soon as they become available.

Non-completion of the tracker will result in payments being delayed or not being paid at all.
