The UK Business Counts data is published annually by the Office for National Statistics (ONS) and is based on output from the VAT and PAYE administrative systems.

The information provided by the UK Business dataset gives a snapshot of businesses, also known as enterprises, and is broken down by size band, industry, turnover, and age of business.

Summary

- As at March 2021 there were 64,700 enterprises in Kent
- The highest proportion of enterprises in Kent (17.4%) are within the construction sector. Significantly higher than the national proportion of 13.0%)
- Most enterprises in Kent (90.3%) are micro enterprises (with 0-9 employees)
- Most enterprises in Kent (99.4%) are classed as companies which operate within the private sector.
- 63.4% of enterprises in Kent reported a turnover of more than £100k in the year 2020/21 (Nationally 62.2%)

Introduction

The UK Business data is produced from a snapshot of the Inter Departmental Business Register (IDBR) - usually taken during March - and provides the basis for the Office for National Statistics (ONS) to conduct surveys of businesses.

The main administrative sources for the IDBR are VAT (Value Added Tax) trader and PAYE (Pay As You Earn) employer information passed to the ONS by HM Revenue & Customs under the Value Added Tax Act 1994 for VAT traders and the Finance Act 1969 for PAYE employers; details of incorporated businesses are also passed to the ONS by Companies House. The ONS Survey data and survey information from the Department of Enterprise, Trade, and Investment – Northern Ireland (DETINI) and the Department for Environment, Food and Rural Affairs (DEFRA) farms register provide auxiliary information. Construction statistics formerly produced by the Department for Business Innovation & Skills are now produced by the ONS.

The IDBR combines the information from the three administrative sources with this survey data in a statistical register comprising over two million enterprises. These comprehensive administrative sources combined with the survey data contribute to the coverage on the IDBR, which is one of its main strengths, representing nearly 99 per cent of UK economic activity.

The latest data is published for 2021 and is based upon the 2007 revision to the Standard Industrial Classification UKSIC (2007). Detailed information about the types of industry which make up each of the industrial sectors is available from the [UK Standard Industrial Classification of Economic Activities](#) published by the Office for National Statistics.

This bulletin looks at the main tables available from the UK Business data, which relate to VAT/PAYE enterprises.

An additional dataset from the ONS is the Business Demography dataset. This is also based on VAT and PAYE data, but this information measures any activity during the year, so leads to slightly higher counts of businesses. It provides information on business births, deaths, and survival rates.

Information on this dataset can be found in the bulletin [“Business Births, deaths and survival rates”](#).

Analysis

Enterprises in Kent

There were 64,700 enterprises in Kent as of March 2021 up 1.1% from the previous year. This was a bigger increase than seen both nationally (+0.5%) and regionally (+0.4%).

When compared with 2010 the number of enterprises in Kent has grown by 29.9%, a larger growth than was seen in the South East region (+27.2%) but lower than the national growth of 32.3%.

Maidstone district had the highest number of enterprises (7,995) in 2021 and saw the biggest growth over the previous year (+345 enterprises, +4.5%).

While all Kent districts have seen an increase since 2010, in the last year three districts saw numbers fall. Sevenoaks had 100 fewer enterprises than in 2020 (a fall of 1.5%), Dartford had 75 fewer (-1.5%) and Tunbridge Wells had 30 fewer (-0.5%).

Enterprises by Industry

The UK Business data shows us the number of enterprises by broad industrial group. Overall, Kent has a similar profile to Great Britain although does show a noticeably higher proportion of enterprises in the Construction Industry and lower proportions in Agriculture and Fishing, Retail, and Information & Communications industries. This is shown in Chart 1. Details are presented in Tables 2 and 3.

Enterprises by employee size

Most enterprises are classed as micro businesses i.e. they have 0 - 9 employees. Kent has a slightly higher proportion of enterprises which are classed as micro (90.3%) than Great Britain (89.7%).

Chart 2 shows the proportion of enterprises in Kent and Great Britain by employment size.

Enterprise by status

The data also shows the number of enterprises by legal status. The legal status of units is classified by the ONS in accordance with National Accounts Sector Classifications. All enterprises engage in financial transactions, paying out and receiving money for reasons such as buying and selling goods and services, paying taxes, or collecting tax revenues. Using information received from Companies House and the administrative sources from HM Revenue & Customs, the National Accounts Sector Classification determines whether a body or enterprise is in the private or public sector, and if public, whether they are government bodies or public corporations, and whether certain transactions count as taxes or service fees.

Chart 3 shows the proportion of enterprises by legal status in Kent compared to Great Britain in 2021.

Chart 3: Enterprises by legal status

The majority of enterprises are private sector companies. In Kent they account for 99.5% of all enterprises, just above Great Britain as a whole (99.4%).

Tables 5 overleaf shows the number and percentage of enterprises by legal status in Kent local authority districts and Kent as a whole, with information at regional and national level for comparison.

Turnover

Turnover figures provided to the ONS for the majority of traders is based on VAT returns for a 12 month period. For 2021 this relates to a 12 month period covering the financial year 2020/2021. For other records, in particular members of VAT group registrations, turnover may relate to an earlier period or survey data.

For traders who have registered more recently, turnover represents the estimate made by traders at the time of registration.

The turnover figures on the register generally exclude VAT but include other taxes, such as the revenue duties on alcoholic drinks and tobacco. They represent total UK turnover, including exempt and zero-rated supplies.

Turnover bands shown in the analyses relate to the latest year for which information is available. Traders may be registered below the VAT threshold or may choose not to de-register should their turnover fall below the threshold.

Table 6 shows the VAT registration thresholds since 2010/11.

Table 6 - VAT registration thresholds

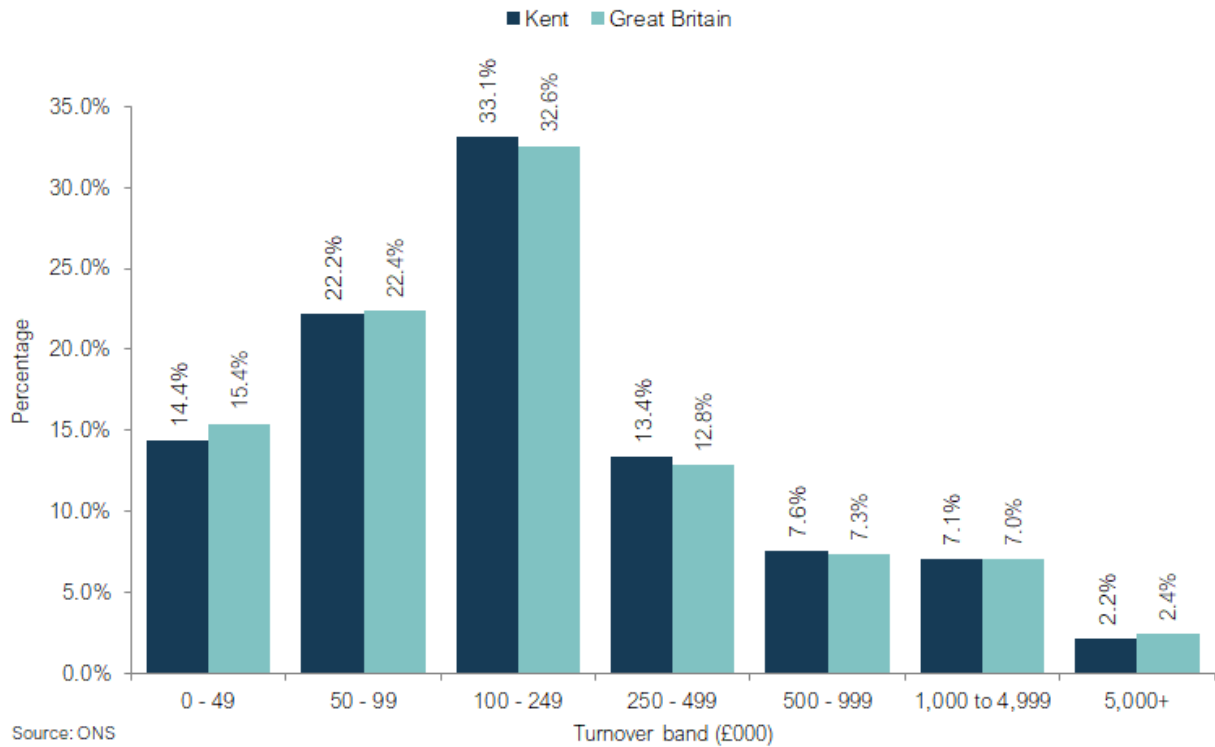

Operative dates	VAT Registration Threshold
1 Apr 2010 - 31 Mar 2011	£70,000
1 Apr 2011 - 31 Mar 2012	£73,000
1 Apr 2012 - 31 Mar 2013	£77,000
1 Apr 2013 - 31 Mar 2014	£79,000
1 Apr 2014 - 31 Mar 2015	£81,000
1 Apr 2015 - 31 March 2016	£82,000
1 Apr 2016 - 31 March 2017	£83,000
1 Apr 2017 - 31 March 2018	£85,000
1 Apr 2018 - 31 March 2019	£85,000
1 Apr 2019 onwards	£85,000
