## Mental health

This year we focused on helping Headstart with the Big conversation to present and ensure it is an enjoyable time for everyone present. We have also been focusing on raising awareness on different weeks and days in a month such as World Mental Health Week, Autism and Stress Awareness week instead of working on one big project. Alongside that we are in the stages of making a 2020 Mental Health calendar which has all of the mental health related dates in 2020 to be released to schools in Kent.

We have just started planning for World Mental Health day and what we would like to do this year for the event. So far we have been looking at what people would like to do in their schools and workplaces. Keep an eye out on our social media pages for updates ready for the 10<sup>th</sup> October this year!

## Curriculum for Life

This group aims to reform the PSHE curriculum to provide pupils with the key skills and education they need to succeed in later life. We carried out a survey of pupils across Kent to underline the poor quality of PSHE education in schools and to find the topics that pupils wanted to learn about most, resulting in mainly political, financial and career-based education. Using this information, we are in the process of creating content for schools to use, including powerpoints.

The group is also collating a list of key speakers, groups and charities that could come into schools to give presentations, incl. practical First Aid courses, to truly engage pupils and provide clear information or topics that many teachers do not have the knowledge or expertise to provide. The group is contacting schools across Kent to highlight the urgency of reforming their PSHE curriculums and supporting them with content, as well as contacting key decision-makers, including parish councils and the Kent County Council, to gain support for this campaign. We aim to provide change so that pupils and cover other essential areas that we feel are much needed.
