Client Contributions for Residential Care

People placed in residential care by the County Council are required to contribute to the cost of their care and support in line with the Care and Support (Charging and Assessment of Resources) Regulations 2014 and as defined in the Care Act (2014). The amount of the contribution is based upon an assessment of their income and capital.

For further details on how Kent County Council work out how much a person should contribute to their residential/ nursing home care, see the charging policy (search for: “paying for residential care” on www.kent.gov.uk).

The majority of people placed in residential care by the County Council will be in independent sector care homes. The maximum charge (for people paying the full cost) will be the contract price agreed between the Council and the care home.

For those people in County Council residential homes, the weekly maximum charge (with effect from the 8th of April 2024) is as follows:

Older People – Maximum	£998.74
People with Learning Disabilities - Maximum	£1,918.42

2 Deferred Payment Arrangements

For people whose capital is tied up in their former home (and whose other capital is less than £23,250) the County Council may be able to offer financial support on a temporary basis through the Deferred Payment scheme. This is for people who either do not wish to sell their former home during their lifetime or who cannot sell it quickly enough to pay for their care. Under the Care Act (2014) Kent County Council is allowed to charge interest on the amounts deferred and an administration fee.

From the 7th of April 2025 the following charges will apply:

- Set-up fee: £1,135.59*
- Annual fee thereafter: £281.75*
- Annual interest rate: Currently estimated at 4.25%**

* These fees can be deferred if required.

** This is based on Government regulations and will be reviewed by the Office for Budget

Responsibility twice a year, in January and July. The interest will be compounded daily.

The actual costs to the Council for providing this service are currently being reviewed, and there is a possibility that the charge may change during the year, once the review is complete. However any change will be notified in advance of any proposed changes.

Additional information regarding the Deferred Payment scheme can be found on the Kent.gov.uk website under Deferred Payment for Care and Support

Client Contributions towards Non-Residential Care

3 Client Contributions towards Non-Residential Care

Under non residential charging rules, people who have savings or investments (not including their home) of more than £23,250 will pay the full cost of their care.

People who have savings under £23,250 will be assessed to see if they are able to make a contribution to the cost of their care and support. The contribution is based on their weekly income (including pensions and benefits), and any savings/ investments between £14,250 and £23,250. Full details are in the 'Charging for care provided in your own home and support in the Community'.

4 Arrangement Fee for Self-funders

According to the government rules people with such means have to arrange and pay for their own care and support. However, they can ask the local authority to do this on their behalf for a fee. The local authority arrangement fees take account of the cost of negotiating and/or managing the contract with a provider and the associated administration costs incurred.

The Care Act 2014, gives local authorities powers to charge an arrangement fee for people with eligible needs and financial means above the upper capital limit, for arranging care needs and managing the contract with the care provider.

The initial set up fee is £383.67

The annual arrangement fee is £171.85.

Fees Charged for Managing Client Financial Affairs via a Deputyship Arrangement

These are fees charged by KCC to those people whose finance they manage. The Court of Protection permits Corporate Deputies to charge a range of fees.

Kent currently charges the maximum that the Court of Protection allows Authorities to charge. These fees are reviewed by the Ministry of Justice and can be changed and published at any time during the year. Please refer to the following PRACTICE DIRECTION 19B – FIXED COSTS AND DEPUTY REMUNERATION IN THE COURT OF PROTECTION
